

# Viewer / Scheduler

**Do you have the right tools to  
get the job done?**

## What are you looking for in a Crystal Reports Viewer/Scheduler?

- A great low cost solution for distributing and viewing your Crystal Reports files (.rpt). It is the only Crystal Reports Viewer you will ever need.
- There is no need to purchase an expensive copy of Crystal Reports for every one of your employees that needs a Crystal Reports Viewer. Crystal Reports is a great tool for analysing data but the fact is that most of your employees don't need a full copy of Crystal Reports. All they really need is a way to view and distribute reports that were already made for them.
- One of the most powerful features is that separates it from other Crystal Reports Viewer is the 'Report Scheduler'. The Report Scheduler can run reports automatically at any intervals you want. This can be as simple previewing or printing a report or much more complex.
- Automatically exports a file into the format you want, attach it to an email and send it off to everyone you specify. What can be easier than that?

# Key Features

- Has more features than any other Crystal Reports Viewer on the Market at a great price.
- View, print and export any of your Crystal Reports (.rpt) files.
- Run and email your Crystal Reports DIRECT from the Scheduler
- Powerful report scheduler that automates the task of running and distributing your Crystal Reports to people without a Crystal ReportsViewer.
- Command line support so it can be activated from external programs, batch files and schedulers.

# Money Time Flexibility

## **Saves Money**

With Scheduler Viewer there is no need to purchase an expensive copy of Crystal Reports for every one of your employees that needs a Crystal Reports Viewer. Crystal Reports is a great tool for analysing just about any part of your business but the fact is that most of your employees don't need a full copy of Crystal Reports. All they really need is a way to view and distribute reports that were already made for them.

## **Saves Time**

Do you run the same crystal reports every day, week or month? Let Scheduler Viewer do work for you with its powerful crystal report scheduler. You can configure the report scheduler to run as many reports as you want whenever you want. Reports can be automatically displayed on the screen, printed and exported. It can export the report into your favourite format, attach it to an email and send to anyone you want all without the touch of a button.

## **Flexible**

Its the most flexible Crystal Report Viewer you will ever use. You can preview, print, export and email any of your Crystal Reports (.rpt) files manually or automatically. It has many options that let you determine exactly how the crystal report will run. This helps you save time by not making you go through the same steps over and over each time you run a crystal report.

# Export Email Command line

## **Export Reports**

Crystal Reports can be exported to many popular formats for distribution to people that don't have Crystal Reports or a Crystal Report Viewer. Acrobat Format (PDF), MS Word (DOC), MS Excel (XLS), Rich Text Format (RTF), Text (TXT), Comma Separated Values (CSV), Crystal Reports (RPT), Tab-separated text (TTX), HTML, XML

## **Email**

Need to run a Crystal Report and send the results out? It has full email support. Reports can be attached to an email using your own email program or sent directly. It can also access your MS Outlook contact list directly saving you time when sending emails.

## **Command Line Support**

In the rare cases that the built-in report scheduler is not enough it can be activated directly with full command line support. It be activated from the Windows scheduler, batch files, DOS commands or any program that can start an EXE file with command line parameters. This means that it can be used in conjunction with a virtually unlimited number of external applications and processes making it an incredibly powerful crystal report viewer.

# Reports passwords updates

## **Recent Reports List**

Keeps a list of the crystal reports you have run recently so that they can easily be run again with a click of your mouse.

## **Stores database passwords**

Your login information can be stored securely . This gives you the ability to run reports automatically without having to type in the login information each time.

## **Password protected**

Password protected to prevent unauthorized people from using the crystal report viewer to run your Crystal reports.

## **Automatic updates**

Continuously checks for program updates and lets you know when they are available for download. Updating your Crystal Report Viewer is as simple as clicking a button.

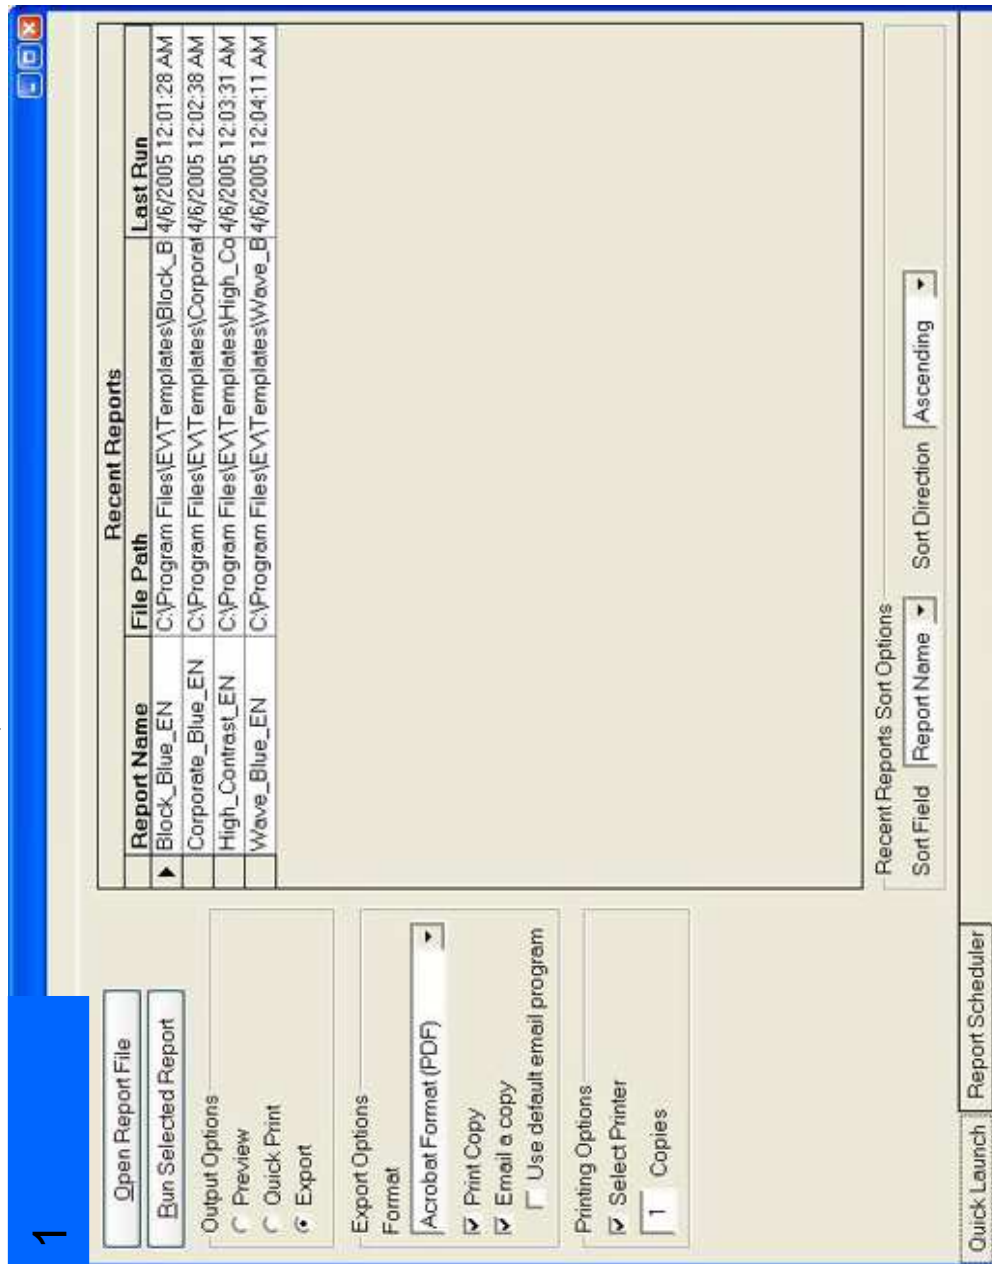

# continued

- Of course can do all the things you expect from a **Crystal Reports Viewer**. It can view and print all of your Crystal Reports (.rpt) files but that is just the beginning. Easy View can also export the report files into many popular formats (PDF, Excel, Word ....). These files can be emailed directly from Scheduler.
- Unlike other Crystal Reports Viewers, it comes with everything you need in a **Crystal Reports Viewer**. We don't try to sell you different programs for viewing, exporting, scheduling and emailing your Crystal Reports. Its all there in one convenient place.
- One of the most powerful features is that separates it from other **Crystal Reports Viewer** is the '**Report Scheduler**'. The Report Scheduler can run reports automatically at any intervals you want. This can be as simple previewing or printing a report or much more complex. Easy View can also automatically export a file into the format you want, attach it to an email and send it off to everyone you specify. What can be easier than that?
- Need to integrate with other applications or schedulers that you have? No problem. It has full command line support which means that it can be activated from any program that can start an EXE file with command line parameters. This means that Easy View can be used with Batch files, Windows scheduler and many other programs.
- **Don't wait another minute. Stop wasting your company's time and money, have the product installed NOW by Businessflow .**

**You won't be disappointed**

# The scheduler

# Reports to email accounts and those on the move

## Problem

You have business system reports but they are not easily accessible to you. You are reliant on a member of your staff running the reports for you... then they away from the office or you are away on business. The information is not there when you need it !

## Solution

A report scheduler. Key information sent to your email when you need it . No longer reliant on having to remember to run those monthly sales business performance reports. The Report Scheduler can run reports automatically at any intervals you want. This can be as simple previewing or printing a report or much more complex. It can also automatically export a file into the format you want, attach it to an email and send it off to everyone you specify. And when you are away from the office it can be sent to your mobile phone. What can be easier than that? Daily sales order information direct to your mobile phone!

# Requirements

## **Supported Operating Systems**

Windows 98  
Windows NT4  
Windows ME  
Windows 2000  
Windows XP  
Windows Server

## **Minimum Hardware Requirements**

Pentium II - 300 MHz or faster  
Memory - 128MB or greater  
Hard Drive Space - 20 MB minimum

## **Price for installation and configuration from Businessflow £300**

**This will include licence for one user to start operating.**

Contact us now freephone 0800 1300 519  
info@businessflow.co.uk

## **Next Steps**

- Step 1 Decide requirements & users
- Step 2 Install
- Step 3 Apply registration (can be done later)
- Step 4 Set Parameters
